EDUCATION

University of the West Indies – St. Augustine Campus, Trinidad

Bachelor of Science in Computer Science, First Class Honours, GPA: 3.86/4.0

August 2023 - July 2026

Course Content: Computer Programming, Data Structures and Algorithms, Enterprise Database Systems, Computer Networks, Computer Architecture, Big Data, Human Computer Interaction, Object Oriented Programming, Web Programming and Technologies, Software Engineering, Systems Security, Operating Systems, Intelligent Systems

Naparima College – San Fernando Trinidad

A Levels: Pure Mathematics, Applied Mathematics, Computer Science GPA: 4.0/4.0

September 2016 - July 2023

O Levels: (Grade 1) - Mathematics, English A, English B, Biology, Additional Mathematics, Information Technology, Spanish, Principles of Business, Principles of Accounts

EXPERIENCE

Scotiabank - IT Intern

June 2025 - August 2025

- **Provided 1st and 2nd Level Support:** Troubleshooted problems in banking systems across the English Caribbean region for users promoting a strong customer focused service with issues being escalated accordingly..
- **Maintained System Integrity:** Performed infrastructural upgrades across Trinidad and decommissioned outdated systems during system maintenance ensuring data were wiped and devices were properly disposed of.
- **User and System Management:** Managed systems and users throughout the English Caribbean region while enforcing group policies of users via Active Directory.
- **Vulnerability Management and Remediation:** Identified and remediated security vulnerabilities found throughout banking systems in the region ensuring compliance with protocol and policies were enforced throughout systems.

PROJECTS

Bakery Suite App - [\[GitHub\]](#) [\[App Demo\]](#) [\[Real Time Tracking Demo\]](#):

January 2026 - April 2026

- **Designed Responsive Multi-Platform Interface:** Designed UI for mobile and desktop devices with a dynamic user-friendly design.
- **Real Time Driver Tracking and Customer Order Updates:** Using WebSockets, enabled live location updates and dynamic marker creation on an interactive map.
- **Developed Customer Storefront System:** Displays daily bakery items in store with cart state caching and pre-order submission for delivery confirmation.
- **Functional Owner Bakery Analytics and Management:** Implemented owner analytics dashboard, route management and inventory management for bakery owners.

Multi-Domain Data Lakehouse - [\[GitHub\]](#) [\[Sample Screenshots\]](#):

February 2026 - May 2026

- **Lightweight Automated Data Pipeline:** End-to-end batch pipeline processing 600M+ NYC TLC and 32M+ NOAA GSOD records automatically by month/year from raw data source into business ready analytics at competitive speeds capable of running on a single machine.
- **Data Quality Maintained:** Implemented validation suites throughout the pipeline ensuring reliability at each stage and preventing bad data from making its way down the pipeline with auditing being possible through generated reports.
- **Developed Analytics Dashboard:** Transformed and enriched data through aggregations to provide business ready analytics displayed via a dashboard for insights on NYC taxi patterns in relation to the weather.
- **Technologies Used:** Delta Lake, PyArrow, DuckDB, Apache Airflow, Great Expectations, dbt, FastAPI, MinIO, Trino, Apache Superset, Docker.

Student Incentive App - [\[GitHub\]](#):

November 2025 - December 2025

- **Leadership and Team Development:** Coordinated development with a team of 4 through regularly planned meetings and task delegation to effectively deliver project on schedule.
- **Design and Implementation:** Designed system architecture and created reusable design templates, ensuring consistent implementation by teammates and efficient layout development leading to visually appealing and user-friendly interface.
- **End-to-End Deployment:** Deployed fullstack web application with PostgreSQL database for managing student records and incentive tracking for staff with real time leaderboard tracking.

CERTIFICATIONS

NVIDIA Fundamentals of Accelerated Data Science- (Feb 2026) - [\[Credential\]](#)

SKILLS & INTERESTS

- **Programming Languages:** Python, C++, C, JavaScript, Typescript, Java, R Language, Dart
- **Data Analytics:** DuckDB, dbt, MinIO, Apache Superset, Apache Spark, Apache Airflow, Apache Kafka, Great Expectations, Delta Lake, Pyarrow, Pandas, Polars
- **Web & Database:** HTML & CSS, SQL, MongoDB, Mongoose, SQLAlchemy, PostgreSQL
- **Frameworks:** React.js, Express.js, Tailwind CSS, Node.js, Flask, Flutter, FastAPI
- **Tools:** Docker, GitHub, Git, Postman, VS Code, Visual Studio, MS Office, Firebase
- **IT Tools:** Active Directory, PowerShell, Vulnerability Management Tools
